

EDUCATIONAL SYSTEMS PLANNING

Anne Arundel County Public Schools Crofton High School

Educational Systems Planning (ESP) is currently providing technology planning and communications infrastructure design for the new Crofton High School. The new school will cost approximately \$125 million dollars. The school plans to support 1600 students in 2020. It will cover approximately 271,824 square feet.

Educational Systems Planning is providing technology planning and voice, video, AV, data, and security communications infrastructure design for this comprehensive school. ESP's design responsibilities include the layout of the data infrastructure for the school's technology-intensive learning environments. The voice, video, data and security systems design includes a building-wide communications infrastructure.
