Baltimore County Lansdowne High School

ESP recently completed the feasibility study and has begun design for the new replacement Lansdowne High School on the same site. The \$110,000,000 comprehensive neighborhood high school will support approximately 1,800 students in 295,000 SF. ESP is involved with technology planning for classrooms, labs, and technical curriculum spaces as well as design of AV presentation, video distribution, voice and data networking, and video surveillance, alarm detection and access control security systems.

Banneker High School, District of Columbia Public Schools

ESP is currently technology planning and design for the new 64,000-sf \$115M Banneker High School. The 800 student school will be built on the site of the existing Shaw Junior High School and is scheduled to open in July 2021. Educational Systems Planning will provide design services for classroom AV, IT, and security systems.

Crofton High School, Anne Arundel County Public Schools

ESP recently completed technology planning and communications infrastructure design for the new Crofton High School. The \$195million 300,500 square-foot facility is a comprehensive high school for 1700 students and opened in August 2020. The firm provided voice, video, AV, data, and security communications infrastructure design.
